

## PARTNERING WITH SALES TALENT RECRUITMENT MAKES FINANCIAL SENSE

**If you are serious about your sales staffing requirement and have a definite need to hire, we recommend that you partner us to find your next sales achievers.**

As you are aware, all recruiters have upfront costs when embarking on a search for a client. These costs include advertising, interviewing, testing, reference checking, and other various time and resource consuming activities. Consequently, when you engage a recruiter on a contingency basis (no find, no fee), you ultimately **pay much more** in order to offset these upfront costs and overheads that are incurred by the agency regardless of whether they find the right person or not.

When you engage our services, you share some of the risks and costs with us through your initial retainer investment, thus we can pass along the savings in the form of a **reduced fee structure of only 9% of annual cost to company. That's 40% lower** than the average recruitment agency fee of 15% of annual CTC. As you can see from the chart below, the savings are substantial.

As one of South Africa's only expert sales recruiting companies, backed by SalesBytes, a leading sales resource company, our goal is to find the best possible and most suitable candidates for your company. We want to find the right sales achievers who can and will sell or lead and coach a team in your particular sales

environment. Our sales development experts provide assistance with ramping up your new hires in the first few months as part of our quality service.

Share a portion of the costs, save a whole lot of money on recruiting fees AND be assured that sales specialists are working with you to find the right sales staff
